1. Every native of India who contemplates proceeding out of India to foreign countries or, strongly urged, before leaving, to furnish himself with an authentic certificate of identity, in the form appended to this Resolution, signed by the hand of the District (or a Presidency Town and its four appendages) or the Commissioner of the District (in the case of residents of British India, and by the Police Officer in that of residents of Native States). In the case of a resident the certificate should be signed by the head of his last school or college and countersigned by the District Officer (or a Presidency Town and in the case of Residents, the Commissioner of Police) or Police Officer as the case may be.

The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other assistance.

Those who are destitute, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India. In lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, on the ground that he is a British subject, and the provision before mentioned respects India of a certificate of identity, which supplemented by documentary evidence of respectability, is not sufficient to secure that a passport will be granted.

No. 4527.—The following letter received from the Government of the East Africa Protectorate is published for general information:—

THE GOVERNMENT, NAIROBI,
EAST AFRICA PROTECTORATE,
June 21, 1918.

Sir,

I have the honour to inform you that the Government of the British East Africa Protectorate has recently had under consideration the desirability of allowing more strictly the provisions of the Immigration Restriction Ordinance, 1908, and the Immigration Restriction Amendment Ordinance, 1912, which are enclosed herewith.

Section 11 of the original enactment provided that any person appearing to be a prohibited immigrant under section 3 (a)* might be permitted to enter the Protectorate on payment of a deposit according to sub-section (1). In the course of time this provision was shown to be acting as a deterrent in the case of persons who might well be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of the deposit.

As in the great majority of cases no arrangements for this security are made prior to embarkation and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This course has led to abuse and is in itself objectionable inasmuch as the deposit provided by section 11 of the Ordinance of 1908 is payable before landing, and if this section is read together with section 12 of the amending Ordinance of 1912, it is clear that the demand for security must also be complied with before landing.

The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship on arrival in port. The strict enforcement of this regulation will have effect as from the 1st of September 1918 and I have the honour to request that steps may be taken to make this provision known to those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of this Protectorate will not hold itself responsible for any expenditure thus incurred.

I have the honour to be,

Sir,

Your most obedient servant,

D. G. NORMAN,
Chief Secretary to the Government.

Local Government and Administrations are requested to make the information contained in the letter as widely known as possible, particularly in places from which emigration to British East Africa is believed to be most numerous. Intending immigrants should also be warned of the rules they are to be proceeding to the Protectorate if they are unable, before landing, to deposit the sum of Rs. 25, or to comply with the demand for the requisite security in lieu of this deposit.

* The section prohibits the immigration of any person affected with certain diseases or any person who is likely to become a pauper or a public charge.

† The deposit required from a native of India is Rs. 10.

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' experience. The centre of the Barometer is twenty-two feet above the level of the sea, and the centre of the thermometer is two feet above the ground. The wind, rain and general weather reported are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 27.35 inches, the average day for the same period being 49.05 inches.

DEPARTMENT OF AGRICULTURE, MADRAS.

CULTIVATION STATEMENT—APRIL TO SEPTEMBER 1923.

[On an average of the five years ending 1921-22, the area sown in September 1923 represents 56 per cent on dry lands and 12 per cent on wet lands, the corresponding figures for the period April to September being 50 per cent on dry lands and 31 per cent on wet lands.]

General.—The rainfall in September was generally heavy, except in Coimbatore and the South. Standing crops were benefited by rain, and some irrigation works received supplies.

There was increase in the area sown only in Kannad and Bellary where the season was better than the average and last year, and in Chittoor, North Arcot, and Madras where sowings in the earlier months had been scanty on account of failure of rains. The largest reductions in the area sown were in the Coimbatore where the South West monsoon was a comparatively failure and in Tanjore where sowings had been delayed by late frosts in the Cauvery.

Paddy was sown extensively in the Coimbatore and a completion of paddy was general, especially in the Tanjore delta. Other crops were extensively in the north were sown, and cotton in Coimbatore and the Deccan, such as parts of the Central districts and Madras, groundnut in Bangalore, Coimbatore, North Arcot, Chittoor, and North Arcot, and sugarcane in the Deccan and the Central districts.

1. **Dry lands.**—The area sown in September 1923 was about 6 per cent below the average and the area sown in September 1922. The increase of about 20 per cent in Kottar and Bellary and of 40 to 50 per cent in Chittoor, North Arcot, and Madras was more than counterbalanced by large decreases in Coimbatore, Coimbatore, Coimbatore, and Trichinopoly. On the whole, there was a reduction of about 10 per cent in the area sown from April to September.

2. **Wet lands.**—The area sown in September 1923, showed only slightly below the average, was nearly 8 per cent below the area sown in September 1922. There was material increase in the area sown only in the Kottar and Kottar delta, Coimbatore, and Tanjore but this was more than set off by heavy reductions in area in the Coimbatore and Tanjore. On the whole, the area sown from April to September 1923 was 5 per cent below the average and 3 per cent below the area sown in the corresponding period of 1922.

3. Figures by districts are given in the statement appended.
